
PRINCE2®: Practitioner 6th Edition (v1.2)

Overview

Welcome to the PRINCE2®: Practitioner 6th Edition course. If you are taking this course, you might already be a Project Manager, or you may be considering a career change and becoming one. Your ability to demonstrate best practices in project management—both on the job and through professional certification—is becoming the standard to compete in today's fast-paced and highly technical workplace. In this course, you will apply the generally recognized practices of project management acknowledged by PRINCE2®. This course will also serve to prepare you for the PRINCE2® Practitioner examination. This course is accredited by PEOPLECERT.

Prerequisites

- PRINCE2® Foundation

Prerequisite Comments

Students in Practitioner should have a familiarity with the basic concepts of PRINCE2®. They can obtain that level of knowledge by taking the following Logical Operations course:

PRINCE2®: Foundation 6th Edition

Students must complete pre-work before class. The necessary files can be downloaded from the CHOICE platform Files tab and are saved under the Pre-course Work folder within the data files.

During this class, students should have the Managing Successful Projects with PRINCE2® 6th Edition manual available to them. This manual can be purchased from the AXELOS website at <https://www.axelos.com/store>.

To take the PRINCE2® Practitioner exam, a student must hold at least one of the following prerequisite certifications:

PRINCE2® Foundation

Project Management Professional (PMP®)

Certified Associate in Project Management (CAPM®)

IPMA Level A® (Certified Projects Director)

IPMA Level B® (Certified Senior Project Manager)

IPMA Level C® (Certified Project Manager)

IPMA Level D® (Certified Project Management Associate)

Target Audience

This course is designed for those seeking to achieve the PRINCE2® Practitioner certificate, which is an important and valuable qualification, demonstrating increasingly higher levels of competence. This level aims to measure whether a candidate can apply PRINCE2® to the running and managing of a non-complex project within an environment supporting PRINCE2®. To this end they need to exhibit the competence required for the Foundation qualification and show that they can apply and tailor PRINCE2® to address the needs and problems of a given project scenario. This course is governed by the PRINCE2® Examination Syllabus, which details the topics which must be covered by courses accredited to provide training and prepare candidates for the examinations in PRINCE2®.

Course Objectives

To help you understand PRINCE2® in respect of its:

Principles, processes, themes, techniques, and roles for successful project management.

Management products that are inputs and outputs of the processes.

So that you may:

Attempt the PRINCE2® Practitioner exam with confidence.
