

Microsoft Project 2019/2021: Part 1

Overview

Welcome to Microsoft® Project® 2019/2021: Part 1. This course is designed to familiarize you with the basic features and functions of Microsoft Project so you can use it effectively and efficiently in a real-world environment. This course covers the critical knowledge and skills a project manager needs to create a project plan with Project during the planning phase of a project. In other words, if your supervisor assigns you to lead a project, this course will enable you to draft a project plan with Project and share it with your supervisor (and others) for review and approval. This course may earn a Credly Badge.

Prerequisite Comments

To ensure your success in this course, you should have basic knowledge and skills using the Microsoft® Windows® operating system—preferably the most current version. While you do not need to be an expert, some experience and competency with Microsoft Office applications, particularly Word and Excel®, will be useful. Finally, having a foundational knowledge of project management concepts will help prepare you for working with Microsoft Project.

Target Audience

This course is designed for a person with an understanding of project management concepts, as well as general desktop computer skills, and who will be responsible for creating and maintaining project plans. This course will give you the fundamental understanding of Microsoft Project necessary to construct basic project plans.

Course Objectives

In this course, you will be able to construct basic project plans using Microsoft Project.

You will:

Identify project management concepts and navigate Microsoft Project Professional.

Create a new project plan.

Add tasks to a project.

Manage task relationships within a project.

Manage project resources.

Finalize a project plan.
